

## Rubric: Project 01b - Website

**Total Points: 250**

Criteria (Total Points)	Excellent (Points)	Good (Points)	Satisfactory (Points)	Unsatisfactory (Points)
<b>Content Quality (100)</b>	<b>Points: 100</b>	<b>Points: 80</b>	<b>Points: 65</b>	<b>Points: 50</b>
	Comprehensive, insightful overview of the selected technology that fulfills all specified content requirements.	Good overview, but some aspects are missing or unclear.	Provides basic information, but with significant gaps.	Content is missing or largely off-topic.
<b>Design and Usability (100)</b>	<b>Points: 100</b>	<b>Points: 80</b>	<b>Points: 65</b>	<b>Points: 50</b>
	Exceptionally user-friendly and visually appealing design that enhances the content.	Generally usable and visually consistent, but with minor issues.	Usable but has some major design or usability issues.	Not usable; multiple serious issues present.
<b>Code Quality (30)</b>	<b>Points: 30</b>	<b>Points: 24</b>	<b>Points: 20</b>	<b>Points: 15</b>
	Code is clean, efficient, and follows best practices.	Code is generally good but has some inefficiencies or lacks best practices.	Code is functional but messy or has major inefficiencies.	Code is non-functional or extremely inefficient.
<b>GitHub Pages (20)</b>	<b>Points: 20</b>	<b>Points: 16</b>	<b>Points: 13</b>	<b>Points: 10</b>
	Public repository is well-organized, and GitHub Pages site is properly set up. URL is shared as instructed.	Repository and Pages site are functional but could be more organized.	Issues in repository organization or Pages setup.	Repository is not public, or Pages site is not set up or URL is not shared.
